CURTAINLIGHT™ 3.0

AMBIENCE LIGHTING FOR CURTAIN TRACKS

CURTAINLIGHT™ 3.0 is the newest version of our LED lighting, perfect for our AP 1170S profile. It comes in lengths up to 6 meter.

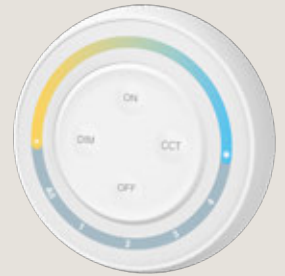

CURTAINLIGHT™ 3.0 offers the same options as the 2.0 version but has a more advanced LED strip solution, specially developed for Stilling®. This newest generation of LED strip delivers an even softer light with greater variation in colour and intensity and no black spots. CURTAINLIGHT™ 3.0 offers stepless dimming capabilities and can also adjust the light temperature from cool to warm.

To control the lighting, we offer remote controls in both 1- and 4-channel versions. Additionally, our LED controller operates on the Zigbee 3.0 protocol, allowing you to easily control the lighting through existing smart home solutions such as Philips Hue and TaHoma® as well as the Tuya app.

NEW STILLING® LED STRIP

The new CCT COB LED strip (Correlated Color Temperature) was specially developed for Stilling. It has 608 LEDs and a brightness of 1200 lumens per meter. With a RA90 colour rendering, it provides lifelike and vibrant colours without black spots. Offered for up to 6 meter long track systems.

SWIPE REMOTE CONTROLS

Touch-sensitive remote controls with swipe functionality and up to 4 channels allow you to dim and adjust the light temperature on multiple tracks from the same remote control, either collectively or individually.

STEPLESS DIMMING

ADJUSTABLE TEMPERATURE

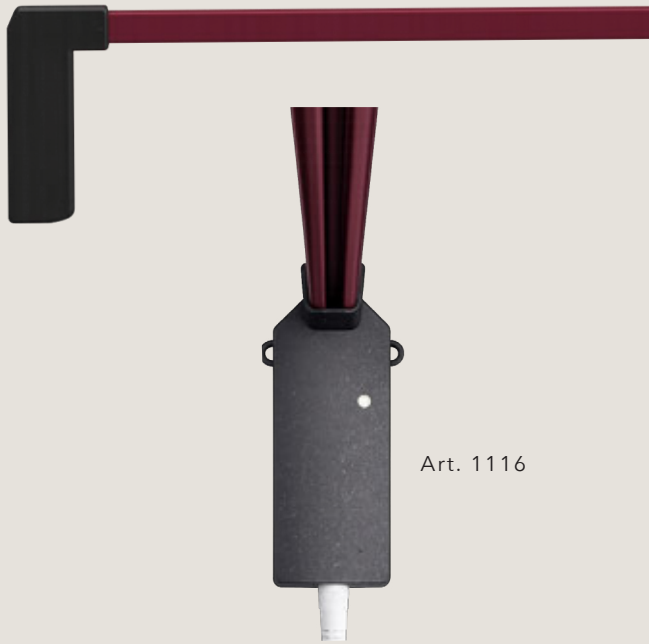

The intensity and colour of the light is adjusted steplessly either by swiping on the remote control or through an app on your smartphone.

If you use smart home services such as Philips Hue, the lighting changes along with the selected 'scene'.

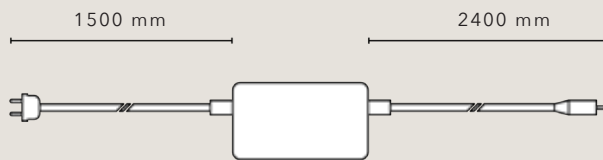

The temperature of the CURTAINLIGHT™ 3.0 is ideal for both decorative and functional lighting as it allows you to switch between warm white (2700K) and cool white (6500K).

Art. 1116

NEW STILLING® CONTROLLER BOX

Drawing inspiration from our motorised track solutions, we have designed a controller box, art. 1116 specifically for the AP1170S and the 7051 controller. By positioning the controller beneath the profile, mechanical stress on the wiring is reduced.

The box features two discreet mounting eyes, allowing the curtain to be routed around it and effectively conceal the box.

3000 mm

Art. 7044

A 3-metre extension cable (item 7044) is now included as standard.
Additional cables can be ordered if extra length is required.

100% SMART HOME COMPATIBLE

Thanks to the Zigbee 3.0 protocol, CURTAINLIGHT™ 3.0 is fully compatible with the most commonly used smart home systems:

- Philips Hue Bridge
- Apple Home / HomeKit
- Homey
- Aqara Hub
- IKEA / Trådfri
- Home Assistant
- SmartThings (Samsung)
- Tuya / Smart Life Zigbee hub
- Amazon Echo with Zigbee

This enables voice control via platforms such as Apple Home, Google Home and Amazon Alexa, adding convenience and intuitive everyday use.

SPECIFICATIONS STILLING LED

Description	COB CCT LED strip
Material	PCB, Copper, SMD LED
Light colour	2700K - 6500K
Power consumption	16W per metre
Power source	24VDC
Diode density	608 per metre
Brightness	800-1200 lm
Dimmable / CCT	Yes / Yes
IP Class	IP20
Dimensions	8x2mm
Remote control	2.4 GHz (30 m)
Smart Home	Zigbee 3.0 (100 m)
Compatibility	Tuya app, Philips Hue, Somfy TaHoma®, IKEA Trådfri and more.
